ABOUT ME

Front End Developer with +3 years of experience in React Native, Next.js, and Vue.js. Specialized in mobile applications and freelance web development. Currently at Simple Solutions developing mobile apps and automating processes with n8n. Focused on delivering scalable solutions that improve user experience.

WORK EXPERIENCE

Front end mobile-web Developer

SimpleSolutions, 2022 - Present

- Developed mobile application in React Native, implementing core functionalities that optimized user experience and navigation flows
- Created 10+ customized landing pages optimized for conversion and performance, focused on different customer segments
- Maintained and optimized web application in Vue.js, ensuring system stability and improving overall performance
- Automated critical processes with n8n: reducing payment reconciliation time by 60% and optimizing user onboarding by 40%
- Developed a stock management system with Next.js and Supabase

Frontend Developer

Freelance, 2023 - Present

- Developed custom web projects using Next.js, React, and JavaScript, delivering optimized solutions for different industries
- Optimized web performance reducing load times through development best practices and advanced optimization techniques
- Managed end-to-end projects from concept to deployment, maintaining direct client communication and meeting established deadlines
